PROFESSIONAL Onboarding and implementation	consultation • configuration & testing • optimization • training & wrap-up		
PROFESSIONAL PLUS Onboarding & advanced implementation	consultation • configuration • integration set-up • testing • optimization • training • wrap-up		

OUR PROCESS

Our Fast Track Packs are designed to get your CTM account up quickly and working the way you envision. Our first call (the kick-off) will establish that our team understands your objectives, suggests a solution within best practices and schedules subsequent calls and check-ins until all pack items are complete.

We will train you on how to build out your account and record all the calls for future reference. Of course, our support team is also available during this time (and after the pack is complete) as a resource for quick questions.
